

PARTNER OVERVIEW

Your assessment expertise has work to do before, during, and after a supplier's compliance decision.

Deep Fathom gives C3PAOs and other experienced practitioners a platform for readiness work, continuing compliance support, and independent review. The supplier remains accountable; your firm brings the judgment clients seek.

P01 • PRINCIPLE 01**Readiness delivery**

Guide a supplier through the work behind its SPRS score, SSP, POA&M, and supporting evidence. The platform organizes the work; your methodology and judgment remain central.

P02 • PRINCIPLE 02**Independent review**

Review the supplier's completed work when an independent perspective is useful. Formal certification remains a separate engagement with its own applicable requirements.

P03 • PRINCIPLE 03**Ongoing client work**

Help clients maintain their posture as systems, people, suppliers, and obligations change. A point-in-time deliverable can become a living operating record.

PAGE 2 • WAYS TO WORK TOGETHER

Three practical ways to bring Deep Fathom into the services your firm chooses to [NEXT](#) provide. →

WAYS TO WORK TOGETHER

Choose the role that fits your practice.

Start with the services you want to deliver and the supplier relationship you want to keep.

01

PLATFORM-SUPPORTED READINESS

Run readiness work across your supplier clients

Use Deep Fathom as the operating layer for the compliance work your team leads. Multi-client delivery can support a repeatable practice.

02

INDEPENDENT REVIEW

Bring informed scrutiny to completed work

Suppliers may want an experienced outside perspective before relying on their own conclusions. Review can stand apart from preparation and certification.

03

PRACTICE CONVERSATION

Shape the commercial relationship around the firm

Discuss platform access, client ownership, service scope, and commercial terms in the context of your practice.

START WITH THE PRACTICE

Talk with Deep Fathom about how your firm wants to work.

Compare the role you want to play with the platform's current capabilities and choose a practical next step.
